

SEASONED EXPERTS TO ENHANCE YOUR PRACTICE

Professional Services for Third-Party Risk Assessments

In a growing, digital environment, it's difficult to understand the level of risk your third-party vendors pose to your business. Assessing their risk with confidence is tedious, especially with the subjective nature of assessment questionnaires only showing half the picture.

To help you execute third-party risk assessments more efficiently and accurately, our team of experts:

Perform Assessments

Assess information security and cybersecurity risk for new and existing third-parties.

Surface Actionable Insights

Identify control gaps through review of third-party input and validation against Bitsight data.

Manage Remediation

Recommend remediation actions for identified control gaps.

Bitsight Professional Services provide expert resources to navigate the complexities, changes, and challenges of managing third-party risk. Get the support you need to help scale and manage your growing third-party ecosystem — while meeting regulatory requirements.

Professional Services for Third-Party Risk Assessments | What's in it for you?

- ✓ Improve time to assess third parties with subject matter expertise
- ✓ Strengthen assessment accuracy using objective, verifiable data
- ✓ Simplify the risk assessment process with guidance on questionnaire selection

Bitsight is a cyber risk management leader transforming how companies manage exposure, performance, and risk for themselves and their third parties. Companies rely on Bitsight to prioritize their cybersecurity investments, build greater trust within their ecosystem, and reduce their chances of financial loss. Built on over a decade of technological innovation, its integrated solutions deliver value across enterprise security performance, digital supply chains, cyber insurance, and data analysis.
