

Professional Services for Third-Party Risk Management

Seasoned Experts to Enhance Your Practice

Managing third-party cyber risk has never been more important – or more difficult. The cyber risk landscape is dynamic and continues to expand. Organizations are becoming more dependent on their growing vendor ecosystems. More than ever it's difficult to protect against ongoing risk. Our team of experts is here to help, providing professional services to deliver:

Managed Vendor Assessments

Vendor assessment management, including issue identification and remediation.

Continuous Monitoring & Risk Hunting

Ongoing mitigation of cyber risk through collaborative remediation with third-parties.

Effective Reporting & Assurance

Meaningful program, event, and vendor-specific reports with insights to drive organizational decision making.

Bitsight Professional Services

Bitsight Professional Services provide expert resources to navigate the complexities, changes, and challenges of managing third-party risk. Get the support you need to help scale and manage your growing third-party ecosystem — while meeting regulatory requirements.

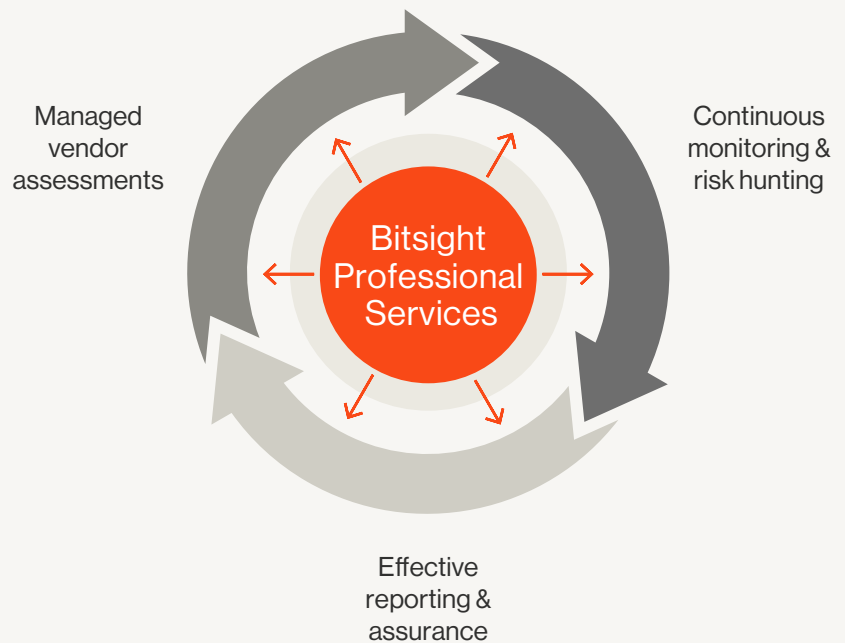

Services That Meet Your Requirements

Bitsight Professional Services are designed for your needs. Whether you are building a program from the ground up, looking to drive efficiencies or scale a particular part of your program — Bitsight Professional Services are here to help.

52% of organizations express they do not have sufficient capabilities in-house to manage all the third-party risks they face

-KPMG TPRM
OUTLOOK 2022

Delivering an end to end program that spans from onboarding to offboarding, with best in class technology and proven third-party risk expertise.

Professional Services Supported by Bitsight Data

Bitsight Professional Services are powered by Bitsight Security Ratings. These analytics are trusted by over 180 government institutions across 30 countries, 38% of the Fortune 500 companies, and 4 of the top 5 investment banks.

Bitsight is a cyber risk management leader transforming how companies manage exposure, performance, and risk for themselves and their third parties. Companies rely on Bitsight to prioritize their cybersecurity investments, build greater trust within their ecosystem, and reduce their chances of financial loss. Built on over a decade of technological innovation, its integrated solutions deliver value across enterprise security performance, digital supply chains, cyber insurance, and data analysis.
